

Azure Solutions Architect | AZ-104 & AZ-305 | Azure Certified Cloud Professional

Introduction

Hello, I'm Curtis, a newly Azure-certified cloud professional with nearly 20 years of previous experience delivering client-facing digital transformation & marketing initiatives within fast-paced London agency and enterprise environments.

I recently achieved Microsoft Azure Administrator (AZ-104) and Azure Solutions Architect Expert (AZ-305) certifications following a structured transition from digital marketing into cloud architecture and solution design.

I combine strong technical learning capability with extensive experience in stakeholder management, pre-sales support, multi-team project delivery, process transformation, presentation and executive communication.

At this early point of my cloud journey, I am particularly suited to junior cloud architect, pre-sales, customer-facing consulting, and Azure transformation roles where communication, project management and business alignment are as important as technical capability.

I am available immediately for Azure-focused opportunities across Greater London, West London and surrounding areas including hybrid roles requiring travel as needed. Super excited to bring my experience to the cloud... let's go!

Work History

pointblank Music School

5 yrs 10 mo

SEO/PPC Consultant

Part-time

Dec 2023 - Nov 2024 · 1 yr

London

Achievements and responsibilities:

For nearly six years at pointblank Music School, I led the school's international digital marketing efforts across its territories, overseeing their day-to-day SEO, PPC and display advertising. In 2023, I temporarily stepped into the role of Campaign Manager, expanding my responsibilities to include the planning and project management of UK-based UCAS, WhatUni & IDP digital campaigns.

Beyond my core responsibilities, I was always on the lookout for impactful opportunities to drive business growth. I introduced the school to messenger chatbots on Facebook, enabling 24/7/365 engagement with prospective students around the globe for the first time. I also led the onboarding of the Zendesk CRM platform, transforming the Sales and Student Advisor teams' workflows and replacing their outdated, underperforming system.

Latitude Digital Marketing

1 yr 1 mo

London Area, United Kingdom

Head of Social

Jul 2015 - Oct 2015 · 4 mos

In under a year, I was promoted to Head of Social from Head of Social Strategy, the same role with additional P&L responsibilities. Unfortunately, shortly after I was made redundant with the entire London office of 30 employees.

Head of Social Strategy

Oct 2014 - Jul 2015 · 10 mos

Achievements and responsibilities:

With Latitude, I led the definition and rollout of the agency's new Earned Media proposition while delivering agency-wide social comms and social ads training. I directed the cross-channel integration of social, paid social and content campaigns alongside managing supplier billing. I also supported new business development initiatives and client pitches while contributing thought leadership through blog writing and industry event networking.

Group Social Strategist

Impellam Group

Feb 2016 - May 2018 · 2 yrs 4 mos

London Area, United Kingdom

Achievements and responsibilities:

At Impellam, my main role was to define and implement group-wide digital engagement strategy for 16 recruitment brands, aligning multi-channel communication across social, paid media and content ecosystems to ensure consistent execution across the organisation.

I delivered organisation-wide training on digital platforms and campaign operations, producing best practice documentation to support scalable delivery and standardisation.

I led cross-channel integration of digital engagement workflows, aligning social, paid media and content operations into a more unified and structured delivery framework.

Acted as primary stakeholder and delivery lead for the LinkedIn Recruiter Professional Services (RPS) programme, contributing to an +80% YoY increase in revenue through platform optimisation, governance and stakeholder management across internal teams and LinkedIn.

Supported the enterprise-wide deployment of Facebook Workplace across 3,400 global employees, contributing to platform adoption, stakeholder engagement, executive alignment and organisational change management through a dedicated internal enablement initiative ("Hearts and Minds" programme).

Collaborated within Agile Scrum teams to support the successful delivery of website projects, contributing to sprint planning, cross-functional coordination, stakeholder communication and achievement of project objectives.

I also supported new business and pre-sales activity through solution positioning, campaign strategy development and performance forecasting to inform client proposals and commercial planning.
